

# THE PHOTOCHEMISTRY OF THE FUTURE

## 100 Years Later

*An international symposium to celebrate the 100<sup>th</sup> anniversary of the famous talk that Giacomo Ciamician delivered to the 8<sup>th</sup> International Congress of Applied Chemistry in New York*

**Saturday 13 October 2012**

**Aula Magna, Dipartimento di Chimica “Giacomo Ciamician”  
Università di Bologna**

### SCIENTIFIC PROGRAM

The symposium will focus on various aspects and applications of photochemistry that are highly topical in our days, some of which – e.g. solar energy conversion, photoresponsive materials – were already discussed by Ciamician a century ago. The program will comprise plenary lectures from international experts:

Vincenzo BALZANI ♦ Luisa DE COLA ♦ Ben FERINGA  
René JANSSEN ♦ Devens GUST ♦ Giulio JORI ♦ Franco SCANDOLA

### LOCATION AND REGISTRATION

The symposium will be held at the University of Bologna, in the Department of Chemistry named after Giacomo Ciamician, via Selmi 2. Registration information, scientific program, and book of abstracts are available online at [www.photonanolab.it](http://www.photonanolab.it). For further information, please write to [margherita.venturi@unibo.it](mailto:margherita.venturi@unibo.it).

### ORGANIZING COMMITTEE

Margherita Venturi (Chairperson), Nicola Armaroli, Giacomo Bergamini, Paola Ceroni, Alberto Credi, Marco Montalti, Luca Prodi, Enrico Rampazzo, Serena Silvi, Nelsi Zaccheroni
